I just have the numbers for the second half of the year, I think Crystal is compiling those for the year.

From midyear to now I have:
6 Lead calls
26 Asbestos calls
29 asbestos emails

Thanks Candace!

Do you have the number of asbestos calls or e-mails you took for asbestos?

As part of a national case coordinated by headquarters, the LBP staff reviewed three seasons of the HGTV television show "Fixer Upper" and reviewed the records for Magnolia Homes. The shows were reviewed for work practice violations of the Renovation, Repair and Painting rule of renovation work done at pre-1978 properties. Examples of the work practice violations found during the review include failing to post warning signs, using restricted work practices to remove surface coatings, failing to have containment, and failing to close doors and windows. A review of the records also found Magnolia Homes failed to become a certified renovation firm, failed to assign a certified renovator to regulated renovations and failed to provide the Renovate Right pamphlet to home owners.

Deliberative Process / Ex. 5 & Enforcement Confidential and Tech. / Ex. 7(a),(e)

Deliberative Process / Ex. 5 & Enforcement Confidential and Tech. / Ex. 7(a),(e)

Changes have already been made to Magnolia Homes' RRP work practices and record keeping. The firm has become a certified renovation firm, hired certified renovators and has started handing out the Renovate Right

pamphlet. Magnolia Homes reports that they have implemented work practices to comply with the RRP rule whenever they work on pre-1978 houses.

The LBP staff worked diligently to bring a the first RRP case to trial, preparing evidence, documents and testimony. The team spent countless hours reviewing in house inspection reports and photographs, as well as reviewing enforcement cases against the respondent from other agencies. The initial hard work by the inspector produced a case worthy of bringing forward to trial when the respondent was unwilling to reach any type of reasonable agreement.

Subject: EOY

Per our discussion yesterday:

Deliberative Process / Ex. 5

- EOY Reporting – I haven't received due dates for reporting outcomes into ACS. For those of you with reporting responsibilities into that system, please put it on your radar and, to the extent you can, please start inputting the information. Lacey – there are several tribal items; **Deliberative Process / Ex. 5**
Deliberative Process / Ex. 5
Deliberative Process / Ex. 5 I will try to fill in the rest (Crystal – looks like you've already been into it and filled a lot of them in!). For those of you that haven't been to the spreadsheet – it's located in the H:WWPD/SHARE/ACS/16 – look for the TOPE spreadsheet. I can help anyone that has trouble finding it.
- PARs – it's that time of year again to prepare for our EOY PARs discussions. Please try to have any summaries of your accomplishments that you would like to provide to me by the end of next week. As always, I'll be interested in your feedback and also would like to discuss your goals, training wish lists, etc. I will start setting up appointments soon.

Thanks Everyone!!
